José Gregorio Lezama González
Technical Lead & **Web Developer**

@ me@joseglego.io   https://joseglego.io/

Vargas, Venezuela
Remote & Willing to Relocate

SUMMARY

I am a **passionate developer** and a **coffee lover**.

As developer, I have experience in **back-end** and **front-end**. I am interested in learning new technologies, always following the best practices of each new language or framework. I enjoy front-end development, work with good eye for details and a good look and field & UX. Also, I really like to work back-end, too. I can work full-stack.

My last works were in: **Front-End & UX, Back-End, Web Mobile, a little of Automation & Admin.**

WORK EXPERIENCE

Cleteci
Technical Lead [2] & Scrum Master [1]
Sep 2014 - Present

1: Jan 2016 - Jan 2017; 2: Feb 2017 - Present

My tasks are: Revision of PR. Support team members in the development of new features. Support QA team fixing issues related to next release and production. Investigation related to new tools & technologies to be able to improve the quality of the environment, code and product. Define higher standards for code, product & documentation. Support thirds companies integrations. Define new features architectures. Do & Manage code refactoring (team between 4 and 9 devs).

Web Developer
Sep 2014 - Dec 2015

My tasks were: Development of new features working on RESTful APIS & Web Applications.

Datos MEG
